GET A LIFE!

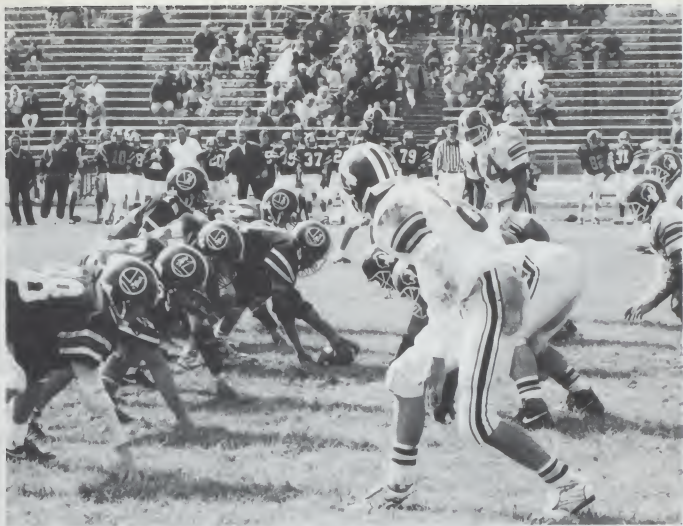

Get a what? That is what many of you may be saying to yourself as you flip through this book filled with many memories.

High school is not just a place to hang out for four years. High school is where you prepare for your future, hence the saying "Get a Life." Although in ways that you may have heard it before, it could be used in a negative sense. But, if you really think about what the words are saying and apply them to a high school student you get a perfectly logical explanation of high school.

Whether you are a freshman just beginning the climb up the ladder, or a senior about to finish the journey, we are all preparing for the same goal, and that is to find a "life" after our school days are over. However, what we make of this life lays in our hands, whether we approach it with vigor, or we just let it pass us by.

Keep this in mind as you glance at the pages what your life was like and how it will change after you "Get a Life" in the real world!

PEOPLE AND PERSPECTIVES

Clarence Thomas was preparing to be sworn in as history's second black Supreme Court Justice when Anita Hill alleged he had sexually harassed her. After three days of testimony, Thomas was confirmed. • America was stunned as it watched the brutal beating of Rodney King by three Los Angeles police officers. The assault of the 25 year old black man was videotaped by an amateur photographer. • William Kennedy Smith was accused of raping a young girl in Palm Beach, Florida. Jurors only took 77 minutes to return a verdict of "not-guilty." • Biosphere 2 was plagued with controversy. Following rumors of fraud and deception, it was questioned whether the project was an experiment of science or business. • Former heavyweight champion Mike Tyson was charged with one count of rape, two counts of deviate sexual conduct, and one count of confinement. Tyson was found guilty on three counts.

Farewell

A Note From The Editor

I beg of you not to criticize this book. Not that I will ever hear it. I did this book by working long hours after school and my entire summer. I am proud of this book, even though it will not win any awards, I am proud to say that I stuck with it. I wish to thank the following people for various reasons.

Thanks:

To John: For being understanding, I love you.

To Patty: For waiting until after my meetings to go to the mall, all of your help with this book, and your friendship.

To D.C. & Peter: For helping me sort pictures, draw layouts, and all of the other things you both did to help.

To Stacy: For all of the help, dedication, laughter, and shrimp marinara that went into this book. I could not have asked for a nicer advisor.

To Murphy: For making me laugh, and for your help, I hope that someday you will look back on this book and say, "I helped my mom and Kris do this book."

To Mom: For picking me up from meetings when my car broke down, for listening to my horror stories about this book, for bringing all the junk to school when I forgot it at home. You're the best.

To my friends: Maybe some of you donated a little time, or some pictures, or maybe you just said an encouraging word to help me through. I appreciate it.

To Mr. Gould: For your help, and believing in me.

To Susan: For your help designing and doing layouts during your busy schedule.

To John Bir: For taking all of the wonderful pictures in this book, for taking a whole day to take club pictures and candid, you're a life saver.

To Giolas: For the great pictures, your help and patience.

To Glenda: For keeping all of my junk on your desk, and putting up with me.

This book is dedicated in memory of John Sweeney.

Thanks again.

the 1990s, the number of people in the UK who are aged 65 and over has increased by 1.5 million (1990–1999) and is projected to increase by a further 1.5 million by 2010 (Office of National Statistics 2000).

There is a growing awareness of the need to develop strategies to meet the needs of the ageing population. The Department of Health (2000) has published a strategy for ageing, which sets out the government's commitment to improve the lives of older people. The strategy is based on the principle that older people should be able to live independently, safely and comfortably, and to participate fully in the community.
